

### REMARKS

Claims 1-10, 13-25, 28, and 35-49 are pending. In this paper, new claim 50 has been added to provide an additional measure of protection for the invention.

Claim 50 recites an electronic device having a sound generator provided within an interior of the housing and the sound generator having a second plurality of holes, each hole having an inlet and an outlet, the outlet of the holes of the sound generator facing an inlet of the holes of the housing, and a component configured to be provided between the first wall of the housing and the sound generator, the component configured to have at least one hole, said at least one hole having an inlet and an outlet, the inlet being provided between the outlet of the sound generator and the inlet on the first wall, and the outlet of the component configured to be provided within the interior.

The Kjeldsen and Fujiwara publications do not teach or suggest these features, whether taken alone or in combination, and neither do the other references of record. Accordingly, it is respectfully submitted that claim 50 is allowable along with the other pending claims.

In view of the foregoing amendments and remarks, it is respectfully submitted that the application is in condition for allowance. Favorable consideration and timely allowance of the application are respectfully requested.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this,
